“Whether you’re a seasoned leader or just starting out, *Future-Proofing Leadership* is your road map for learning how to thrive through change and stay grounded in what matters most.”

—Kristen Hadeed, author of *Permission to Screw Up*

THE FUTURE DEMANDS A DIFFERENT KIND OF LEADER. ARE YOU READY TO MEET THE CHALLENGE?

ROSIE WARD, PHD

In *Future-Proofing Leadership*, Dr. Rosie Ward presents a bold, human-centered blueprint for thriving in the face of uncertainty. Drawing on years of coaching, consulting, research, and lived experience—and through real stories and data from 250 leaders across industries—she unpacks the hidden forces that keep us stuck and reveals the faulty inner programming that quietly sabotages our effectiveness.

Part leadership guide, part inner-work manual, *Future-Proofing Leadership* equips readers to upgrade their mindset, lead with greater courage and humanity, and build teams and cultures that are resilient, purpose-driven, and adaptable in the face of uncertainty.
